### FROG IN HER STOMACH.

### The More Mrs. Goldsmith Ate, the Thinner and Weaker She Grew.

Mrs. Harry Goldsmith of Hempstead, L. L. was in the mountains of northern New York some months ago and with | finance, resembles that of numerous some friends spent a day in the woods. being thirsty she leaned over the edge of a stream and drank from it. She noticed that she swallowed what appeared to be a small piece of grass. In a day or so she had entirely forgotten the circumstance.

Mrs. Goldsmith has been having an Increased appetite for the past six weeks and has been constantly thirsty. She was also attacked with fits of dizginess. Doctors' remedies all failed the department of finance, of which and she continued to become weaker and lose weight.

nd lose weight.

Her husband, who is a druggist, desteal a man's brain." cided to study her case himself and finally concluded to administer an emetic. To his surprise a large frog was dislodged from his wife's stomach. It had been there for months, was in a perfectly healthly condition, and after being placed in a jar swam around. She swallowed it as a tadpole. Her condition shows marked improvement. Fashion show last night at the Madi-

## Millionaires as Writers.

William Waldorf Astor recently he came in possession of an idea for a | child was apparently unconscious of story, which he has since printed in the excitement he created. the Pall Mall Magazine. It is an unusually good story and Mr. Astor is getting credit for baying done a piece of thoroughly good literary work. That other eminent millionaire, Mr. Carnegie, has limited himself of late years to founding libraries, instead of writing them. It is said that when Mr. Gladstone read a book by Mr. Carnegie he remarked that he admired the courage of a man who, without knowing how to write, wrote on a subject of which he knew nothing.

## Mineral Matter in Food.

The base of nutrition in all living beings is oxygen, water, salts, carbon and nitrogen. Forster tried to feed dogs on organic substances deprived of nearly all their mineral matter Death from starvation occurred sooner than if the dogs had been completely without food. M. Herrera pays in Revue Scientifique, Paris: "Living beings are but aggregations of mineral substances and biology is but a chapter in minerology."

### Salisbury's Scientific Views. Although the late Lord Salisbury

was much interested in science and was a fellow of the British Royal soclety, he never approved of the extreme views of some of his associates. He was particularly opposed to the theory of evolution as raught by Herbert Spencer and of the descent of man as enunciated by Charles Darwin.

## Kept Him Working Hard.

John Butler of Rockland, Mass., though but 65 years old, is the father of thirty-five children, the oldest of whom is 45 and the youngest 2 years old. As he has reared his numerous progeny respectably while working at his trade the chronicler will be believed in his statement that "Mr. Butler is a hard-working man."

## Pigskin to Supercede Rubber.

A Scotch firm is authority for the statement that rubber tires for vehicles of all kinds will soon be displaced by pigskin. The firm has a process for tanning the skins which renders them so hard that when used as tires they will wear longer than rubber and give equal satisfaction in other respects.

OF THE IMMIGRANTS WHO COME TO OUR SHORES.

This Can Be Done by Continuing Our Protection Policy, Whereby We Insure Them Work, Wages and a Higher Standard of Living.

Immigration under present conditions presents a serious problem.

No one can sit at his desk and absorb the facts that come to us in reports without appreciating the peril that threatens should hard times come to this country.

I am not an alarmist, but when I see hundreds of thousands of ignorant foreigners coming into our great cities every year I think I can realize in some degree the danger that will come from their discontent and dissatisfaction when there are no wages to be earned.-Commissioner Sargent.

"When there are no wages to be carned." What memories such a supposition brings up. It carries us back to the days of panic and idleness following the compromise tariff of 1823; it carries us back to the workless and wageless days and years between 1850 and 1860, brought on by free trade; it carries us back to the idle me and women of 1895-6, and the loss of earnings due to the free trade law of 1894.

With the experience and knowledge which we gained from these awful periods following free trade legislation. we can well appreciate the necessity of continuing our present excellent tariff law to enable us to care for these millions who are coming to our shores. We must protect them by continuing to protect our labor and industry from one end of the country to the other. It may be that some of these immigrants are of an undesirable character. It may be that bet ter immigration laws are desirable. are before us. It is protection and prosperity that invites these foreign-

MAKE GOOD CITIZENS | well as our industries; that we con tinue to maintain and build up our home market, worth more than all the markets of the world combined, and that we do not disturb the causes of the present splendid growth of indus tries, our splendid advancement of citizenship and our splendid standars of living, which cannot help but in vite those abroad who have been struggling for a bare subsistence, and have in their natures a single spark of ambition.

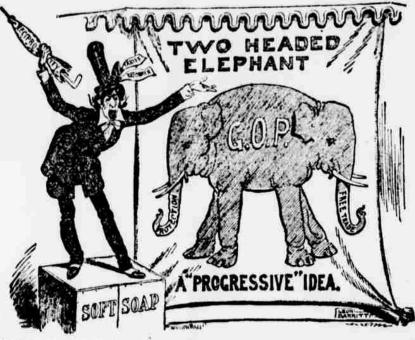

### England's Condition.

Our exports of manufactured goods to protectionist countries are steadily decreasing. Our imports of manu factured goods from these very coun tries are steadily rising. The protected states not only shut our goods out of the market but are shutting them out of our home market. We now import as much manufactured goods as we export to the protected states on both sides of the Atlantic. The workingman's occupation is go ing, and occupation is income. Capl tal is also going. It has been lost altogether to a large amount by the falling off of our industries, and it is further scared into seeking abroad the investments which business ceases to offer at home. That is a serious condition of affairs for all of us, and most of all for the working man. We cannot meet it by cheapen ing the food, we cannot even prevent food from becoming dearer, and the country is asked to consider whether there are no means of getting more money to buy food with-Londor Times.

### Nothing to Fear.

We protect our manufacturers by preserving the home market to them and being so stimulated they are able to supply that market and have larger surpluses to send abroad. England might attempt to protect her agricultural population (considering those in her colonies), but she would still have to import food. We might doubt the efficacy of our protective system if we still had to import most of our manufactures. As it is, our food ques tion and our manufacturing question are wholly disassociated, save as ers to our shores. They do not come thriving manufactures make demand

HAVING A CIRCUS ALL BY HIMSELF.

United States or in a vain endeavor to exalt some country above the sta tion which nature has assigned her .-Kansas City Journal.

## Up Against It.

Even with a united party the Democracy is in the minority in the United States. Under the best possi ble conditions for itself, it would have great difficulty in making headway against the Republican party. In every aspect the situation is adverse to the Democrats. The Republican party, ever since its return to power has governed the country wisely and successfully. The Democracy has no policy which is calculated to win the popular regard. It has no leader whom any considerable body of the American people respect. The con ditions all point to a big victory for the Republicans in 1904.-St. Louis Globe-Democrat.

All Things to All Men. Gov. Cummins' idea of tariff legisla tion is in these words: "Duties that are too low should be increased, and duties that are too high should be reduced." If that blanket doesn't cover the entire political aggregation, we can't imagine one sufficiently elastic to do the job. There's not a Republican or a Democrat, a Populist or any other brand of politician who cannot indorse such a deliverance, for it means all things to all men. Even the straight-out free trader can shelter himself under it .- Montgomery (Aia.) Advertiser.

## Good Object Lessons.

Imports for the year ending last March aggregate one billion dollars. That "robber tariff" wall was real high, but it helped Uncle Sam pay pensions, establish rural routes, improve rivers and erect public buildings, and so forth. Looking at these little things, it's a good idea to keep country not far from New York and ent most admirable fiscal policy; that on letting well enough alone .-- Bray-

The "Best-Girl" Habit. "Why," asked her anxious and ex cited mother, "do you think he is coming to the point at last?"

"Well," the maiden replied, looking demurely down at the rug, "when he took me in his arms and kissed me last night he said he'd got so used to me he didn't believe he could ever break himself of the habit."

A Combination of Discomforts. "I see that those progressive Mexisans get the latest weather report stamped across the envelopes of the letters they receive."

'Well, it must be enough to make a man feel pessimistic to get an envelope stamped 'Continued rains and much colder,' with an unexpectedly large bill inside."

Wanted the Real Thing. "Matilda!" shouted old Crawfoot, angrily, "stop pounding on that pi-

anny." "Oh, papa," lisped the girl in gingham, "the paper says music will kill mosquitoes.

"Well, then, why don't you play music?"

Maternal Pride.

First Young Wife-The photographer said my baby was the prettiest baby he'd ever seen.

Second Young Wife - That's strange. He said the same thing about mine.

First Young Wife-Well, I suppose he saw your baby before he saw mine.

Neat Scheme of a Clubable Wife. "I think, she said, "that I have a little the best of my husband."

"How is that?" "Why, he thinks I give too much time to my clubs, so I offered to give up one of mine for every one of his that he would give up."

long to eight. Yes, I think I have a and save your money. little the best of him."—Chicago Post.

## Unsportsmanlike.

First Chauffeur-Puffer ought to be sportsman. Second Chauffeur-Why, what's

the matter with Puffer? "He runs people down promiseu ously, without ever tooting his horn. lar not-hunter."-Kansas City journal.

# In Kansas.

"Do the Kansas farmers expect much for their money?" asked the hat salesman.

"I should say so," responded the lightning-rod agent. "After they buy

Couldn't Have Been He.

Lady-I'm sure you're the same nan I gave a loaf of home-made bread to yesterday.

Tramp-It wasn't me, madam, never felt better in my life.

### Both Sides Of It. She-It's lots of fun to flirt with . man till you get him to propose and

then say "No." He-Yes, and it's lots of fun for the man, too; but he runs an awful risk. She-How's that?

He-She might fool him and say Yes."

It Comes Back. Subbubs-Do you really mean ay you keep a cat? Backlotz-Yes.

Subbubs-I shouldn't think you'd vant one around the house. Backlotz-I don't, but the cat insists.

What He Deserved. "Did he marry for money?"

"Yes."

"Ana did he get it?" "He did. I understand she makes him a cash allowance of \$2.50

Consumption of Eggs. Prof. Thompson, who is a statisticlan of reputation, has discovered that in the city of New York each family of five persons consumes on an average four eggs a day. In Chicago, if it is accepted that the city has reached a population of 2,000,000, the rate of egg consuming is higher, and every person in the city manages to consume one whole egg each day in the year.

## Needed for a Picnic.

A spot on the edge of the woods, with water near. Several persons with a sense of humor. A camp fire where corn and potatoes may be roasted and coffee boiled. A red tablecloth and little red-fringed napkins. Wooden plates, knives, forks and spoons All sorts of sandwiches, carefully packed and wrapped in waxed paper.

# Has Many Honors.

The lord high steward to the Kaiser boasts of no fewer than seventy orders, which were conferred upon him by his own and foreign sovereigns. The chancellor of the empire, Count Buelow, follows second best, with sixty orders.

### An Old Soldier's Experience.

Dennard, Ark., Sept. 7th. Mr. E. J. Hicks, merchant of this place, has written for publication, an account of a personal experience, which is very interesting.

"I am an old Federal soldier," writes Mr. Hicks, "and shortly after the close of the war I was taken sick. I had aches and pains all over me, fluttering of the heart and stomach trouble. I just simply was never a moment without pain. I could not sleep at night, and I was always tired and rearfully weak.

"I took medicine all the time, but for a long time I was more dead than alive. Altogether I suffered for over twenty years, and I believe I would have been suffering yet, or in my grave, if I had not read of Dodd's Kidney Pills.

"I got an almanac which told me of this remedy, and I bought some of it. started with three pills a day, but increase I the dose to six pills a day. I had not used many till my pains began to disappear. I kept on and now can sleep and eat as well as ever I could, and I feel like a new man, with no pains or aches left.

"I will always recommend Dodd's Kidney Pills, for they are a wonderful remedy."

Somehow the things we imagine would make us perfectly happy are always possessed by others.

If you wish beautiful, clear, white clothes use Red Cross Ball Blue. Large 2 os. package, 5 cents.

"Figures never lie" in the hands of a poor accountant,

You never hear any one complain about "Defiance Starch." There is none to equal it in quality and quan-"Well, he belongs to two and I be tity, 16 ounces, 10 cents. Try it now

## Too Great a Risk.

An insurance agent called at the house of a newly married couple and put out of the auto club. He's no true during the conversation urged the husband to take out a policy, but when he heard the fair young wife say to her husband, "Yes, do so, Charlie, and I'll bake you some nice pastry for your supper," he stood a moment, as if conidering the risks, and then he close his book and fled.

> New York's Population in 1900. The population of New York in 1908 was 3,437,202, of whom more than three-fourths were foreign-born or of foreign parentage.

> Precipice Has Immense Drop. The Myling Head precipice in Street moe, one of the Faroe islands, has a sheer drop of 2,200 feet from crest to sea.

> Company Owns Many Steamers. The Irrawaddy Flotilia company owns the record number of steamers for any one company-118 in all.

> Few Wild Elephants. There are certainly not more than 10,000 wild elephants left, against a quarter of a million in 1875.

> > To Retire Professors.

Yale professors will hereafter be retired from service, except in special cases, at 68 years of use.

DOCTOR SAID

"Quit Wrong Food and Eat Grape-Nuts." An Illinoisan who has been through

the mid says: "Last Spring I was so bad with indigestion I could not digest even soft cooked eggs and doctor said I must eat predigested food and prescribed Grape-Nuts. I changed for the better before I had used one package, eating it three times a day. "My improvement on Grape-Nuts

food was so wonderful that I concluded to use your food drink Postum in place of tea and to make a long story short I have not been without Grape-Nuts and Postum since and my present health proves my doctor's wisdom in prescribing Grape-Nuts. I have got strong as a horse and well and I owe it all to your delicious food and Postum." Name given by Postum Co., Battle Creek, Mich.

In the making of Grape-Nuts food all the indigestible starches of the grain are transformed into Post Sugar. Every particle of Grape-Nuts is digestible in the weakest stomach. Physicians have never found a stomach too weak to digest and assimilate

Look in each package for a copy of the famous little book, "The Road to
